This bitch is nicely bred with a pleasing head. Good expressive eyes, resonable sound. I find her to be very rangy and a bit long. I would like a larger headpice and a 11 to 1 set of the ears.

This is a very nice puppy. Nicely bodied, very sound with a proper topline and good angels. While she has a plasing head I would like it a bit larger to the size of the body, otherwise nice.

This male has a lovely expressive head pice, good bone, relatively sound, ideally I would like a little less lenght of back and not so rangy looking (because of the length of the back) He has wonderful front movement and shape of the front is the correct box.
